FEATURES

High heat glove; Withstood time to pain of 10.6 seconds at 392°F

Temperature noted is dependent upon duration, application, and environment. Actual use temperature may be lower.

Worldwide Protective Products style MATA30-BH, also known as the Boar Hog, is made with ATA® yarn and it offers ANSI level A6 protection accompanied by high levels of comfort and flexibility. A split cowhide leather patch is sewn onto the palm of the product using high strength Kevlar® thread. Extra reinforcement is applied to the thumbcrotch area to increase the wear and life of the product. Top of the line protection for some of the most demanding environments.
