Temperature noted is dependent upon duration, application, and environment. Actual use temperature may be lower.

Worldwide Protective Products style MJVATA, also known as the Javelina, is a top of the line leather safety glove. Featuring an ATA® seamless liner, this product gives the wearer ANSI level A5 cut protection. Split cowhide leather is present on the palm, fingers and knuckles - while a white canvas backing offers support and comfort. The safety cuff design allows for quick and easy on/off. Sewn entirely with Kevalar® thread. The ultimate work glove!
