

M13K-100

High Dexterity Kevlar® Gloves

APPLICATIONS

Automotive
Construction
General Purpose
Material Handling
Small Parts Assembly
Used as a Liner Glove

FEATURES

The ideal combination of manual dexterity and Kevlar cut protection. M13K-100 gloves feature 100% DuPont™ Kevlar® fiber in a form fitting, 13 gauge knit design for great fingertip sensitivity. And with ANSI A2 cut resistance, they provide reliable protection against low to moderate cut and slash hazards. Plus they're inherently flame resistant – they won't burn, support combustion or melt. M13K-100 gloves make an ideal liner glove, and are also used for stand-alone protection. Machine washable for long wear life. Made in the USA.
