

# MATA25HA

*Strong Cut and Abrasion Qualities*

## APPLICATIONS

Metal Fabrication  
Glass Handling  
Automotive  
Public Utilities  
Pulp and Paper

## FEATURES

Worldwide Protective Products MATA25HA glove provides great cut and abrasion qualities compared to conventional para-aramid gloves, thanks to our proprietary ATA® Hide-Away™ technology. The unique blend of dark color fibers gives this glove extended life thanks to its ability to hide dirt and soiling. ATA® Hide-Away™ products have a longer lifespan, cost less, and provide a higher value than traditional para-aramid products. Fully CE rated and ready for use in the EU.
